Estimation and Rounding	N.4	Round to the nearest ten, hundred, or thousand
Money	P.12	Subtraction money - up to \$1
Money	P.13	Subtraction money - up to \$1: word problems
Time	Q.9	Elapsed Time I

To be completed at the Grade 2 Level no later than July 31:

Heading	Skill	Description of Skill
Addition - 2 digits	G.16	Add four numbers up to two digits each
Addition - 2 digits	G.17	Add four numbers up to two digits each: word problems
Logical Reasoning	O.1	Guess the number
Time	Q.10	Elapsed time II
Fractions	W.13	Compare fractions using models
Probability and Statistics	X.4	Find the median
Multiplication	Y.5	Write multiplication sentences for arrays
Multiplication	Y.6	Write multiplication sentences for number lines

*Please Note: Occasionally IXL adds skills over the summer, which affects the skill numbers. When in doubt, follow the description of the skill, rather than the skill number.

SUMMER READING ASSIGNMENTS

1. Read one fiction book of your choice at your child's guided reading level.
2. *Day-Glo Brothers: The True Story of Bob and Joe Switzer's Bright Ideas and Brand-New Colors* by Chris Barton

SUMMER MATH AND READING ASSIGNMENTS

The following is an overview of your child's required math and reading assignments for the summer months. Please see the assignment sheets for each grade level, posted on our website, for a more detailed summary of summer assignments

SUMMER IXL MATH ASSIGNMENTS

Every child who is entering grades 2 – 8 will be expected to complete a series of IXL math exercises. Please note that, unless otherwise indicated, the exercises are to be completed at the grade level your child is now finishing. Students should work until they have received a Smart Score of 80. As you will notice, some of the skills must be completed by June 30 and the remaining skills by July 31. Your child's current math teacher will be monitoring this site during the summer; however, it is your child's responsibility to complete the assignments. Successful completion of these exercises in grades 5-8 will be counted as a first quarter grade. Progress will be monitored and noted for students in grades 2-4.

SUMMER READING ASSIGNMENTS

Every child entering grades 1 – 8 is expected to complete a summer reading assignment. Upon completion of each book, students in grades 2 – 4 are asked to complete an activity from the Summer Reading Tic-Tac-Toe form, found on our website. Students in grades 5-8 are asked to complete one fiction and one non-fiction book report form, also found on our website. These completed forms **must be submitted by Tuesday, September 3rd**. Please note that separate requirements for students entering grade 1 are found on their assignment sheet.

Book reports will count toward the first quarter reading grade. Students in grades 5-8 will be graded using the rubric found with the summer reading assignments on our website.

We are confident that the summer math and reading assignments will help our students to keep their skills fresh, while also allowing for plenty of time to relax and refresh.

We wish you and your family a wonderful summer!

Brenna Warrell
Principal
